When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the "Page Sizing & Handling" section. Make sure the "Actual Size" is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the "Pages to Print" section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

#### Spiral Basket.

This basket was suppose to have a spiral effect when viewed from the top. This is achieved by slightly rotating each ring when they are glued back together. The effect was not as well achieved as I wanted. I decided to release the pattern anyway. If you rotate the rings in different degrees you get different effects. Just play with it before you commit to glue.
