General Pattern Information

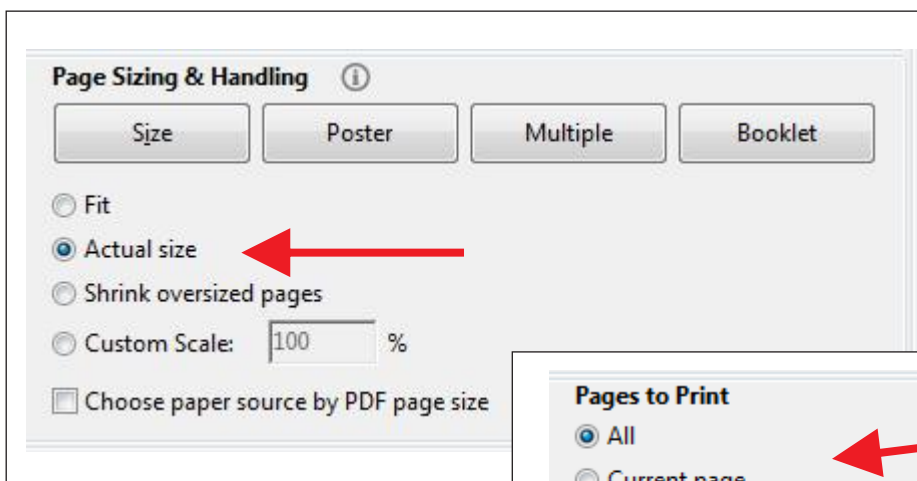

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

2X4 Toys

These toys are all cut from construction grade 2X4 studs.

You can use 1.25" or 1.5" wheels. On the sports cars I used both sizes so the rear wheels are larger.

Notice the larger wheels on the back. That is optional.

When making toys always do a good job sanding all the edges.
Make sure the wheels are glued on well.
Make sure the child is age appropriate for the toy.
