## General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

## Compound Cut Tree

HERITAGEWOOD.COM !

Your source for scroll saw ready boards.  
[www.heritagewood.com](http://www.heritagewood.com)

I used a standard construction grade 2X4 cut down to a 1.5" X 1.5" blank approximately 3.5" long.

Cover two sides with blue painters tape.  
Wrap the pattern around the blank at the fold line.

Drill an entry hole on through the blanks for the blade.  
Drill on both side where the pattern is seen.

Place the pieces in a clamp and cut side one. You could probably hand hold this piece but it's easier with the clamp.  
Even a quick clamp will work. This jig is one I made.

After you complete side one flip the piece in the blank and cut side two.

Here is the piece cut from both sides ready to reveal the Tree.

Remove all the waste wood and reveal the tree.

1.5" X 1.5" X 3.5" Blank

Want a challenge. Cut the  
smaller set and make  
Christmas earrings.

.75" X .75 X 2" Blank
