General Pattern Information

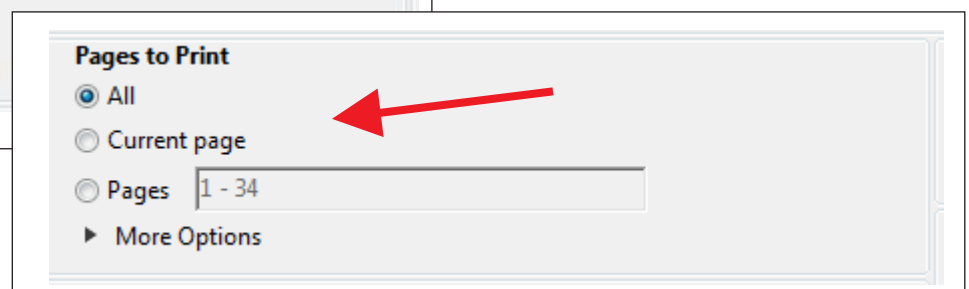

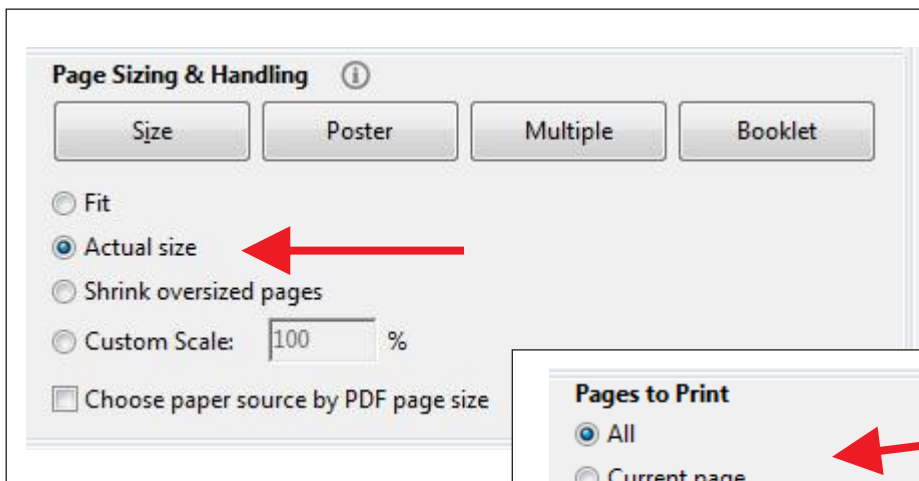

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

Basket Pong

Game play:

Sit the goal on a hard surface.

Choose your distance from the goal.

The ping pong ball has to bounce at least once before it goes in the goal.

You will need:

Standard ping pong ball
16oz red plastic cup

BASKET PONG

1/4" Thick

The dotted red line is
where the goal post
attaches to the
back of the
backboard

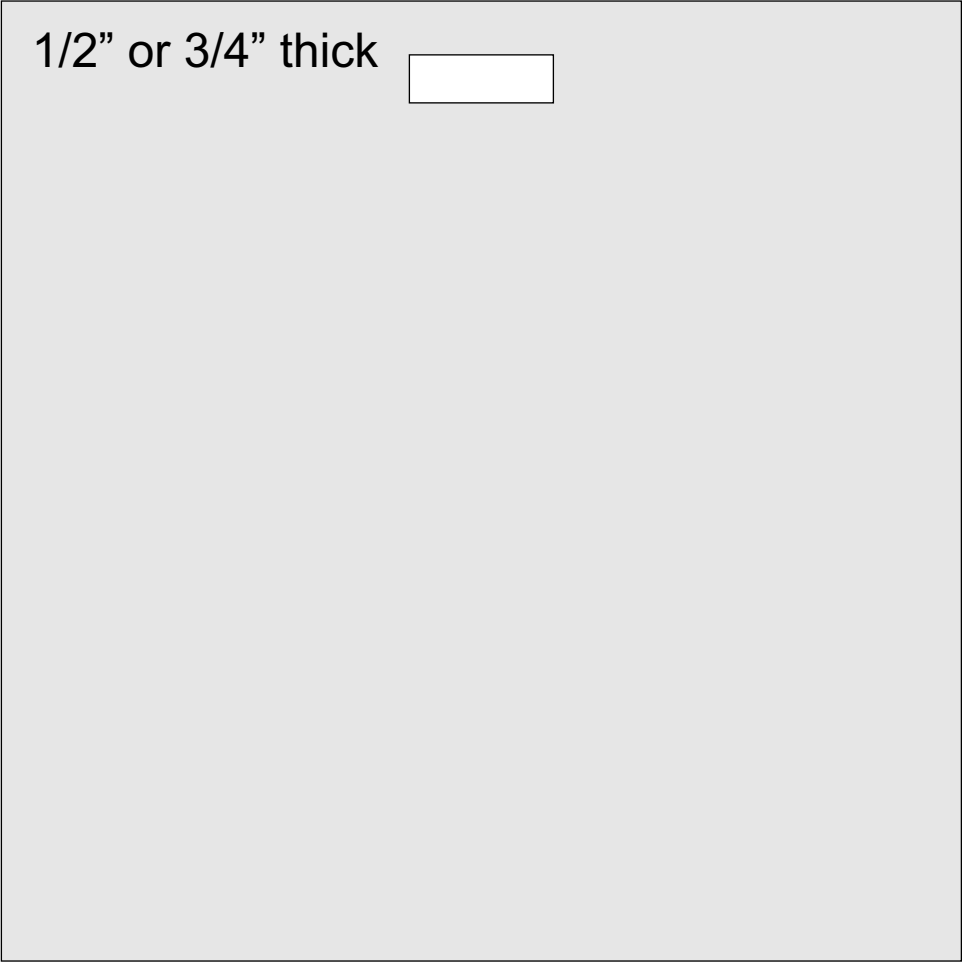

1/4" Thick

1/4" Thick

The diagram shows a T-shaped cross-section of a structural member. The top flange is a horizontal rectangle labeled "1/4" Thick". The web is a vertical rectangle extending downwards from the center of the flange. The entire shape is filled with a light gray color and has a thin black outline.

1/2" or 3/4" thick

The diagram shows a rectangular cross-section of a structural member. The rectangle is filled with a light gray color and has a thin black outline. In the top-left corner, there is a small white rectangular area containing the text "1/2" or 3/4" thick".
