# General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

We will cut two set of the rings. I suggest stack cutting to save time.

Drill the interior holes with a small drill bit where indicated on the pattern.

Cut the rings from the interior out.

Stack the rings from smallest to largest then move to the second set of rings and go from the largest to smallest.

To keep the mouth of the basket from getting too small I did not use the last three rings. They can be discarded.

Use small dabs of glue at the points to glue the rings together.

I added two extra rings of the same size to the top to  
for a rim.

1/4" Thick
