General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Best Dad I Ever Saw

I cut the blade from 1/4" Baltic birch plywood.
I painted the blade with metallic silver spray paint.

Glue the blade into the slot after it is painted.
I masked off a small section for the glue before
I painted.

I cut off a small section at the bottom of the blade so
I could glue it deeper into the slot.(see pattern)

1/4" Thick

If you plan to use the base, you may want to cut off at the red dotted line to get a flush fit to the bottom of the base. This will also give you more surface area for the glue.

**3/4" Thick
Base**
