# **General Pattern Information**

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the "Page Sizing & Handling" section. Make sure the "Actual Size" is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the "Pages to Print" section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

There are two sizes of blocks in this pattern book. 2.5 inches tall and 5 inches tall.

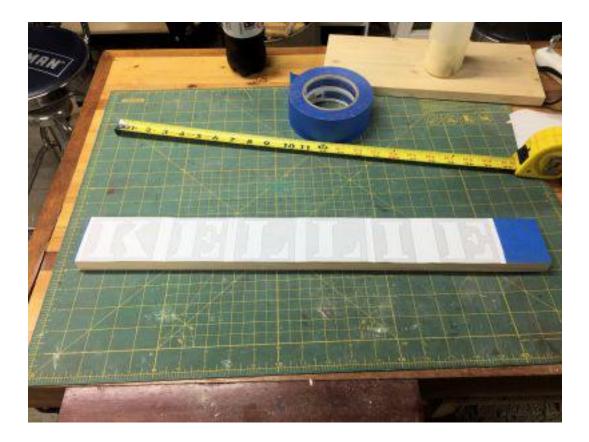

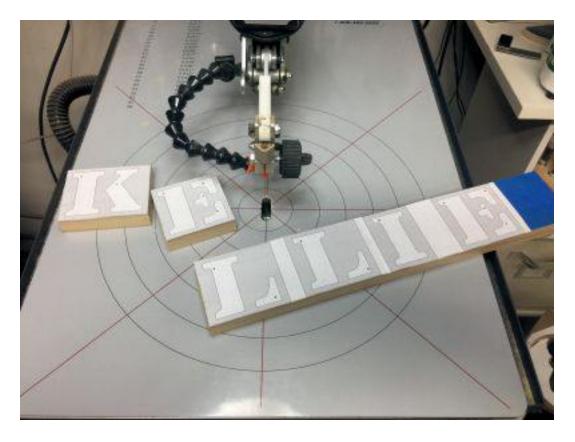

An inexpensive select pine from the big box store will work fine for this project.

I used 1/4" thick Baltic Birch Plywood for the backer.

Apply the letters you need to the board. I am using the 2.5 inch tall letters for this project. I purchased a 2.5" board so I only have to make cross cuts.

I made the cross cuts first then all the interior cuts.

I cut Baltic birch plywood to the size of each letter for the backer boards.

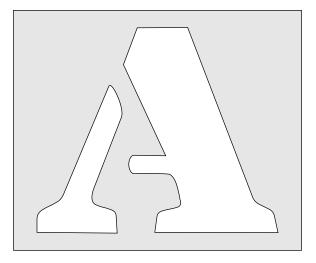

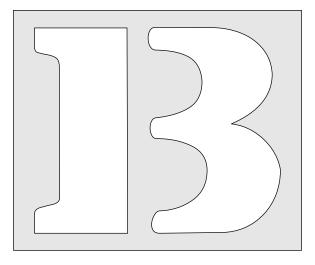

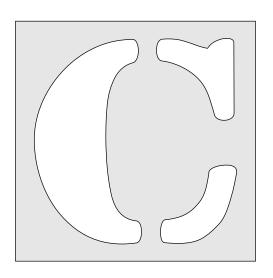

Glue on the backer boards and clamp until the glue cures.

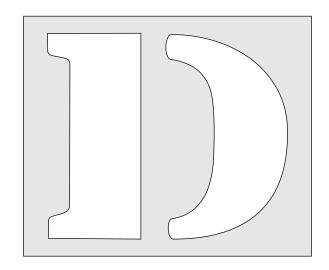

You want to sand the ply flush with the blocks. Round over the corners and ease the edges.

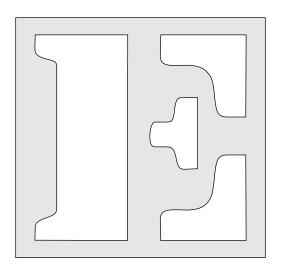

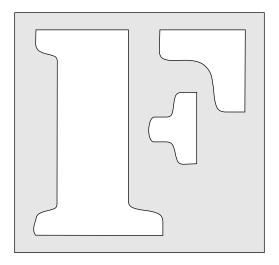

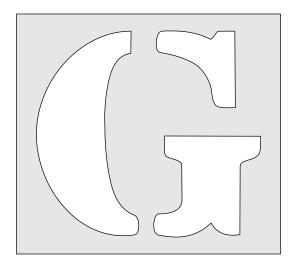

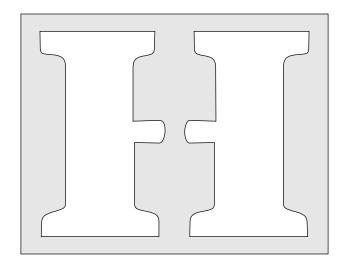

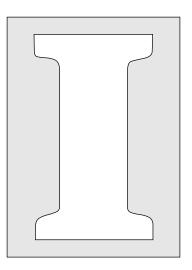

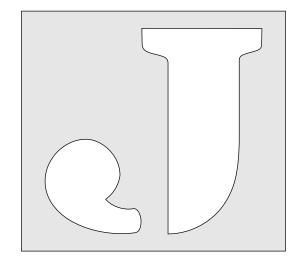

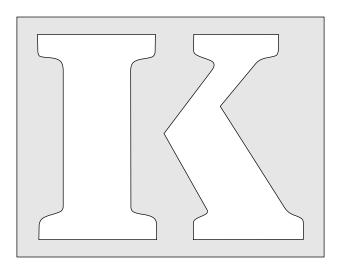

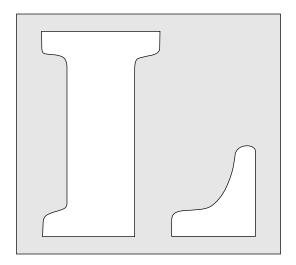

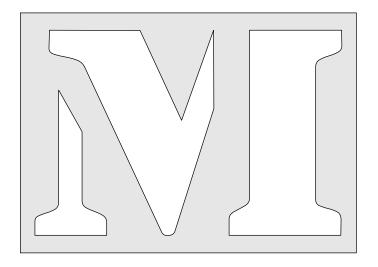

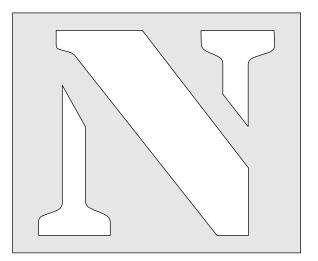

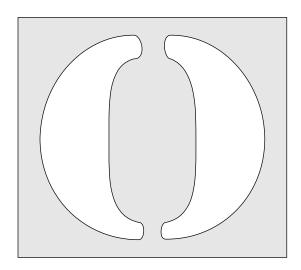

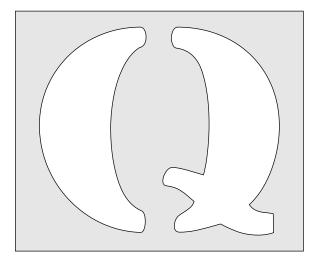

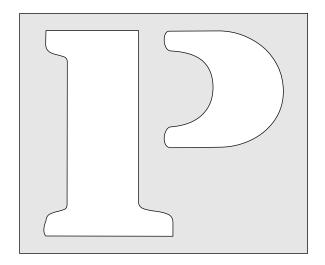

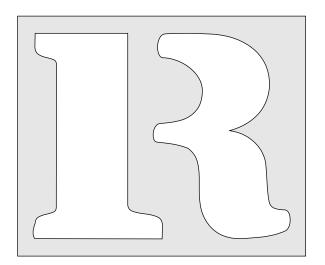

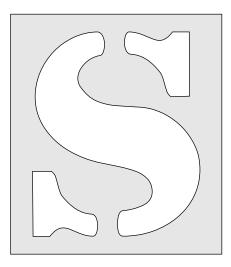

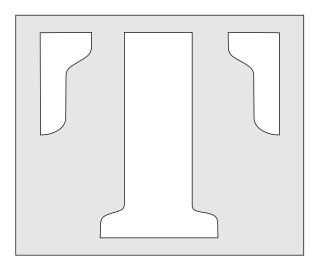

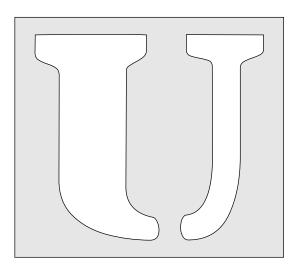

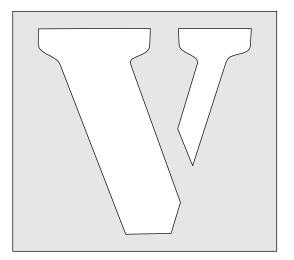

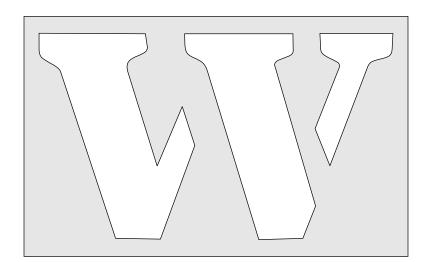

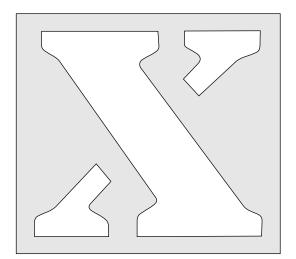

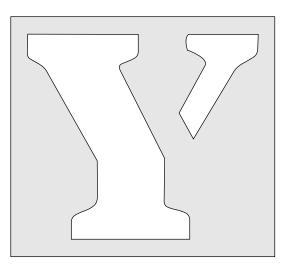

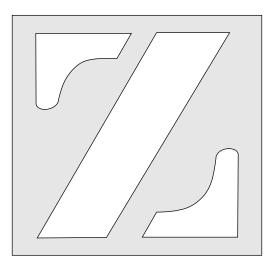

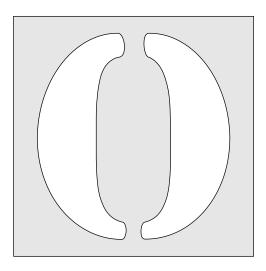

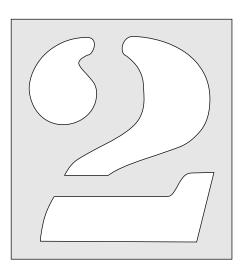

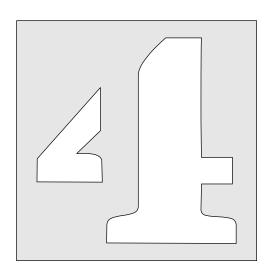

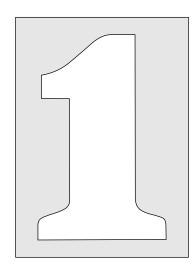

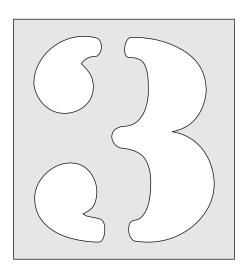

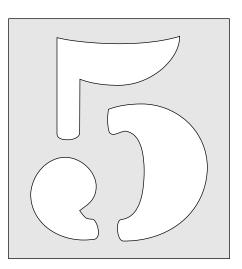

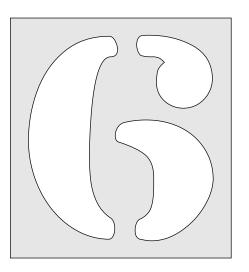

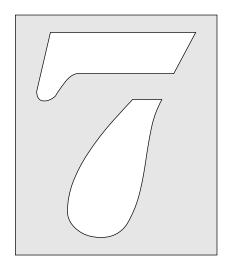

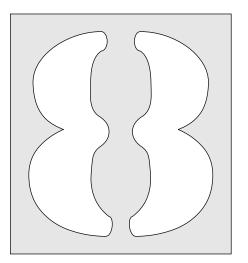

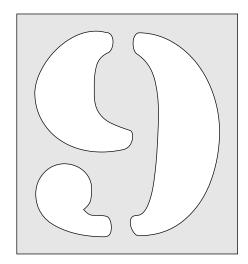

## The remainder of the patterns are 5" Tall.
