# General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

# Printing Instructions

## Cat Treat Box

If you just want a cat themed box you can eliminate the letters.

To get the thickness of the box you need 1.5" thick wood.  
If you do not have wood that thick then glue up two 3/4"  
thick boards.

You can glue the boards up first and cut one thick board or  
you can cut them separately and glue them together after  
they are cut.

If you cut them separately you will have more sanding to do  
but they will be easier to cut.
