## General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

Colt 45

In the picture above all the parts have been cut but not sculpted. The gun body is cut from 1/4" thick MDF. The handle is Walnut. We will paint the MDF parts black.

Contouring the parts is key to a successful build.

Here are the pieces after contouring.  
Glue all the pieces in place except the handle.

I used black spray paint to paint the body of the gun. Notice that I masked off a small area to glue the handle on after the paint dries.
