General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the "Page Sizing & Handling" section. Make sure the "Actual Size" is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the "Pages to Print" section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Dragonfly Art

The wire legs are optional. If you want to hang the dragonfly on the wall just eliminate the legs.

The wings are cut from 1/8" thick Baltic birch plywood.
Both set should be stack cut for speed.

Use a drill to drill out the holes for the wings.
Use a sharp knife to square up the holes so the
tabs on the wings will fit securely.

I used CA glue and spray activator to hold the wings
in place.

If you want to add legs then use stiff wire. Drill three holes along each side of the body for the wire. I used CA glue and spray activator to hold the legs in the body. Bend the legs to make the dragonfly stand off the ground.

Back Wing
1/8" Thick
Cut Two

Front Wing
1/8" Thick
Cut Two

Note wing orientation.
