# General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Decorative Lantern

The lantern could also be used as a display case. You have ~4.75" inside diameter. About 5.5" of usable height.

## WARNING

If you choose to use a real candle then the top should be removed while the candle is burning.

Use an electric candle if you want to use with the top in place.

Depending on how you will be using the lantern you can glue the tower to the base or add the locating circle to the base and have the ability to remove the tower.

Because there are some smaller interior cuts I only stack cut three at a time. Do as many as you feel comfortable cutting.

Cut a total of six. Stack cutting is preferred.
