## General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Alternative ways to decorate the ornaments.

Write the names on the ornaments.

Paint the ornaments.

The pattern includes different size ornaments for up to 10 ornaments per tree.

The numbers on the ornaments indicates how many you can get on the tree.

You can stack cut more than one ornament at a time to speed the cutting.

Stack cut

Lay out the ornaments in the pattern you like. Use a sharp nail to mark the spot for a screw.

Pre-drill holes for the screws that will hold the ornaments.

This is a picture of the back showing the tree support.

If you plan to use pictures on the ornaments then prepare the pictures. Print on high quality photo paper.

Carefully cut out the pictures.

Use spray adhesive to attache the pictures to the ornaments.

I used spray acrylic to finish the picture ornaments.
