## General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

Fish Mount

The fish pattern is printed showing the back side of the fish. I did this so you could punch mark the mount holes.

Apply the patterns and use a punch to mark the drill holes for the 1/4" dowel rods. Just drill in about 1/4" deep.

Cut two one inch long dowel rods. Make sure the head of the fish goes in to the hole marked head on the mount board pattern.p

The fish pattern is printed backwards so the mount holes can be punched.
