## General Pattern Information

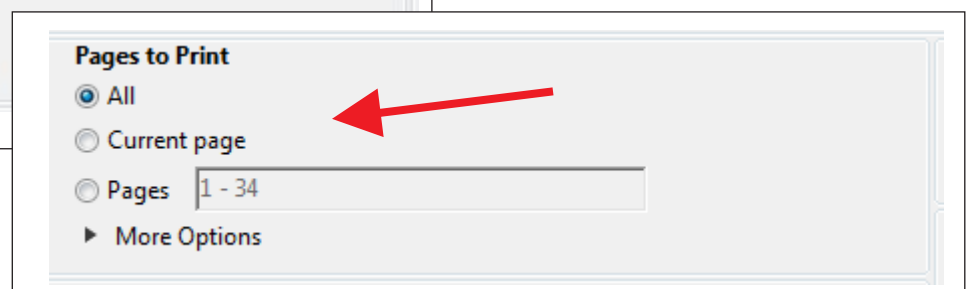

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

## Heart Ring Box

Stack the top and bottom to drill the holes. The holes in the top and bottom are 1/4" diameter. We will use 1/4" wooden dowel for the pivot shafts.

Cut both drawers and drawer bottoms. Glue together.

Drill a  $17/54$ " diameter hole. This is just slightly larger than the  $1/4$ " wooden dowel so the drawers can easily pivot.

Cut the dowels long. Insert the dowels in the top and glue in place. Slide the drawers on the wooden dowels being careful not to get glue on the drawers.

Place the bottom on all three wooden dowels. Press it down until the top and bottom are just not touching the drawers. Glue to bottom to the dowels. Again be careful not to get glue on the drawers.

This is optional. I decided to do a little carving on the rose. I used my Marathon micromotor to add detail the the rose.

I drew in some pencil guide lines for the carving.

I lowered and tapered the leaves. I rounded over the petals and added a few relief cuts.

Sand all the edges of the box flush.  
Glue the rose decoration to the top of the box.  
Apply a finish. Be careful with the finish. You don't want to make the drawers difficult to open.

All three holes are  
1/4" diameter.

1/4" Thick  
Top

1/4" Thick

All three holes are  
1/4" diameter.

1/4" Thick  
Bottom

Both holes are  $\frac{17}{64}$ "  
diameter.

$\frac{3}{4}$ " Thick or thicker

Both holes are  $\frac{17}{64}$ "  
diameter.

$\frac{1}{4}$ " Thick  
Drawer Bottom

$\frac{1}{4}$ " Thick  
Drawer Bottom
