## Inclusion Box

Any small object can be preserved for years in clear casting resin. The cavity created in the top of this box is 1/4" deep. It could hold coins, stamps, tickets etc.

Walls of box are 1" deep

Top 1/4" thick

Bottom 1/4" thick

Inclusion walls 1/4 to 1/2" thick.  
The scroll saw table should be  
set to about 4 degrees to help  
keep the casting resin from  
warping as it dries.
