When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

This pattern is small. I used a 2/0 blade and a #57 micro drill bit for the interior starter holes.

Below this, the text "Nationally recognized seller of quality hardwoods for woodworkers across the US and Canada" is written in a white, sans-serif font.
