# General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Segmented Santa Ornament

Original graphic from [www.freepik.com](http://www.freepik.com)

Cut all the individual parts.

To keep the small parts from falling through the hole in the table I cover it with blue painters tape.

Contour the edges of the pieces to give them some depth and separation. I used sand paper, Dremel tool and sanding twigs to get into all the small areas.

I used a light wash of paint. I wanted the wood grain to show through just a little. I used a water based craft paint and thinned it down with more water.

Glue all the individual pieces to the backer board and use a spray acrylic for a protective coating.

1/4" Thick

1/8" Thick Baltic birch plywood  
backer board.
