Oval Key Chains

With Inlaid turquoise inlay material.

The liquid inlay is optional. The key chain on the right in the picture shows an example without the Inlaid.

The key chain is cut from two 1/8" pieces of hard wood. The front is glued to the back and optionally filled with Inlace (Liquid inlay). The front and back should be contrasting woods.

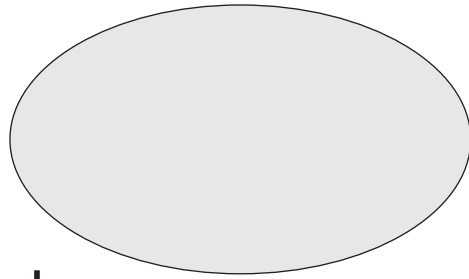

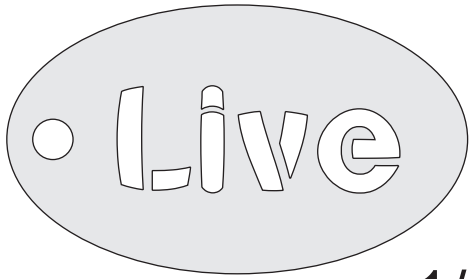

I used walnut for the back and maple for the front in this example.

The Inlace material can be purchased from www.woodcraft.com

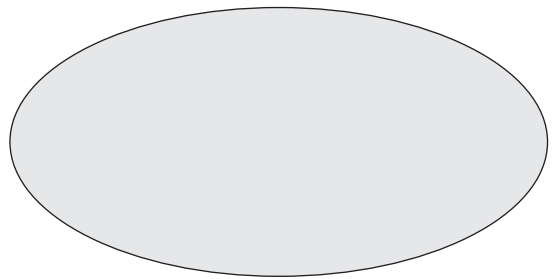

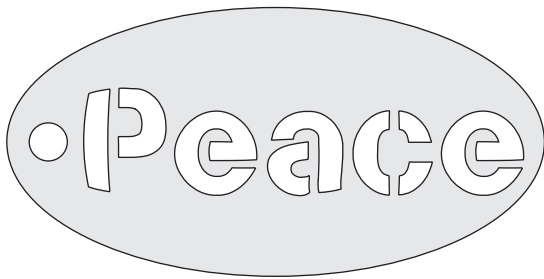

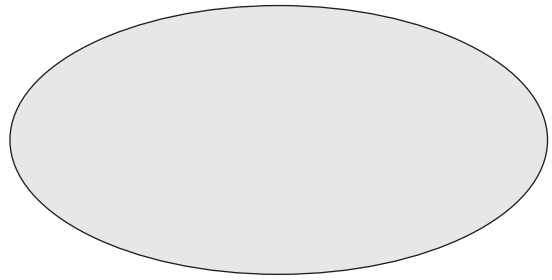

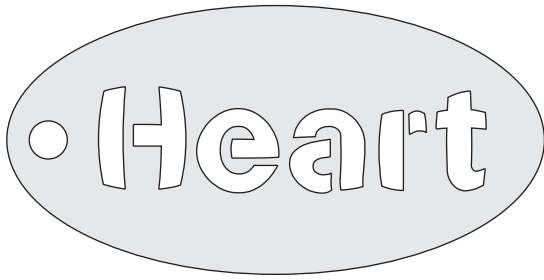

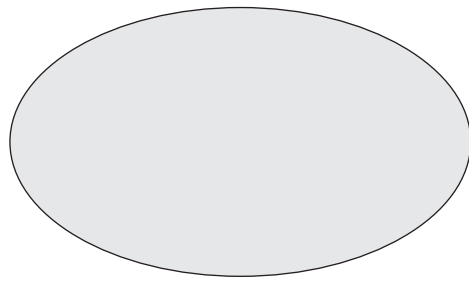

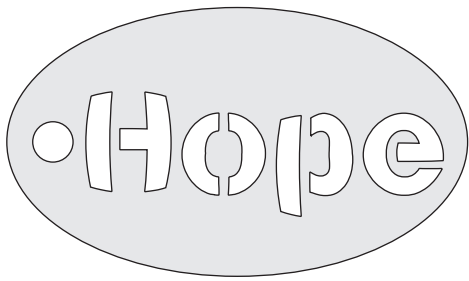

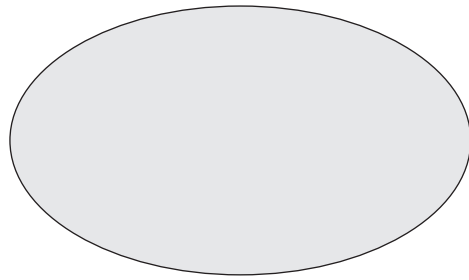

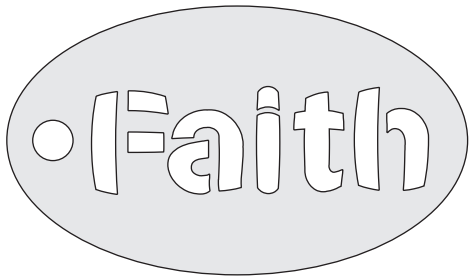

For a two part video demonstration of the Inlace product Visit these links.
