General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Hand cut card.

With this method you can cut 10 to 20 of these cards at once.,

We will use 1/8" thick Baltic birch as the carrier for the paper.

I use card stock from the scrap book section of my craft store. Cut the BB ply to the size of the pattern. Use the BB ply to cut as many pieces of card stock as you want to cards. You can easily cut 20 at a time.

We will make a sandwich out of the BB ply, paper stack and pattern. Use blue painters tape to wrap it all together then apply the pattern to the top.

I find that a #2/0 or #1 blade give me the smoothest edges to the paper.

Finish cutting the pattern and then disassemble the pack.

Use an Xacto blade to score the card at the fold line.
This step will give you a cleaner fold.

Glue in the inner panel and you are finished.
