and the Scroll Saw Key Chain Printer

Requires a 2 3/4 inch clock insert with a 2 3/8 inch mounting hole.

2 3/8" hole

1" Thick

Insert hole is best cut with a 2 3/8 forstner bit. If you do
not have one that size you can cut the hole with your
scroll saw. Just cut slightly inside the line and sand to a
snug fit. One advantage of the forstner bit is you do not
have to cut the hole all the way through. This give the
back a better apperance.
