When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

I play with trains.

The train can be cut with or without the text.

If you don't want the text just cut here.

You can cut and tape the pattern and apply to a 16 inch board or just cut the pattern in two pieces and glue together. If you choose to cut in two pieces you might need to mount the parts to a base.
