Rotating Picture Frame

Use a 1 3/8" Forstner bit to cut the hole for the mini picture frame and clock.

2" X 2"

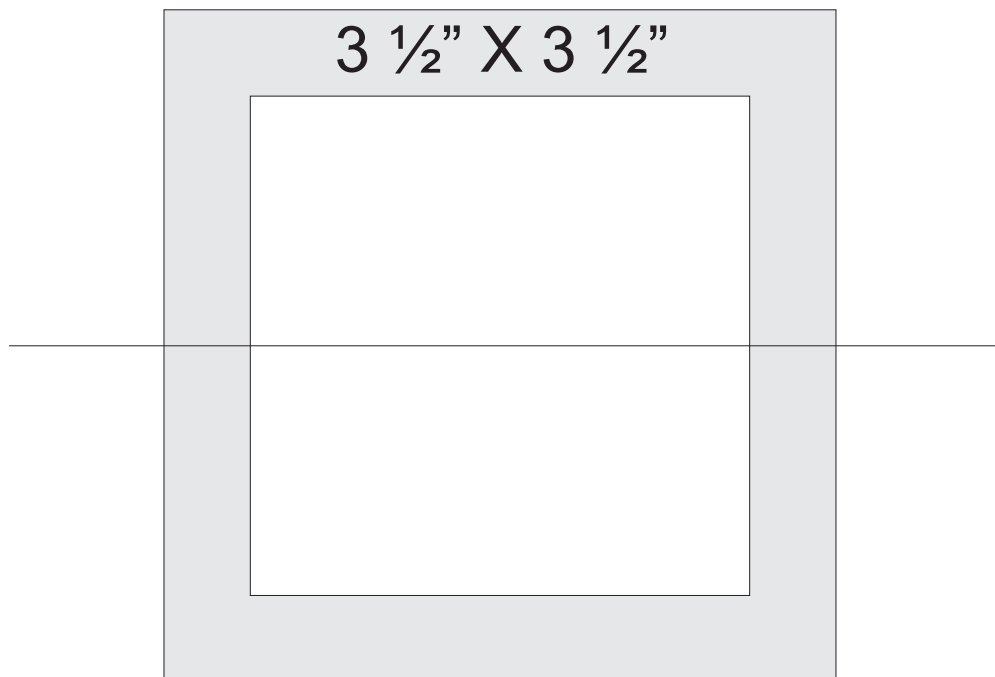

Drill 1/4" hole for dowel rod.

Requires 2- 1 7/16" mini frame insert.

Wood needs to be 1" thick
so both frames and the dowel
will all fit.

You will need a 3 1/2" X 1/4" wooden dowel

Sand all edges and corners round and smooth.
