Cheese Dome

The bottom is cut from walnut. The plate was cut from ½" Thick Corian.

The glass dome was purchased at Woodcraft. Not all Woodcraft stores carry the dome. Here is a link where to can find a 6 inch glass dome online. <http://www.woodturnerscatalog.com/> Search that site for "glass dome".

You can use wood or Corian for the plate. If you decide to use Corian as I have in this project you need the proper blades. The Flying Dutchman Polar blades will work fine. Here is a link where I buy my Flying Dutchman blades.

<http://www.mikesworkshop.com/blades.htm>

$\frac{1}{2}$ " Thick Corian or wood.
