General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Model Sail Boat

One inch dowel cut on an angle.

I used 1/8" dowel here and sanded it flat on one side. You can just cut flat stock if that is what you gave.

The hull of the boat is layered 1/4" thick Baltic birch plywood. It is then contoured by sanding into the shape of a boat hull.

I used CA glue and spray activator to assemble this model. It is much easier than trying to clamp these pieces together while wood glue dries.

To build the front rail I cut 1/8" dowel with an Exacto knife and CA glued the rail together.

I also used 1/8" dowel for the mast pieces. The dowel was sanded flat on one side and CA glued to the sails.

If you do not have 1/8" dowel just cut the flat stock for the mast and round over the edges.

Cut 2

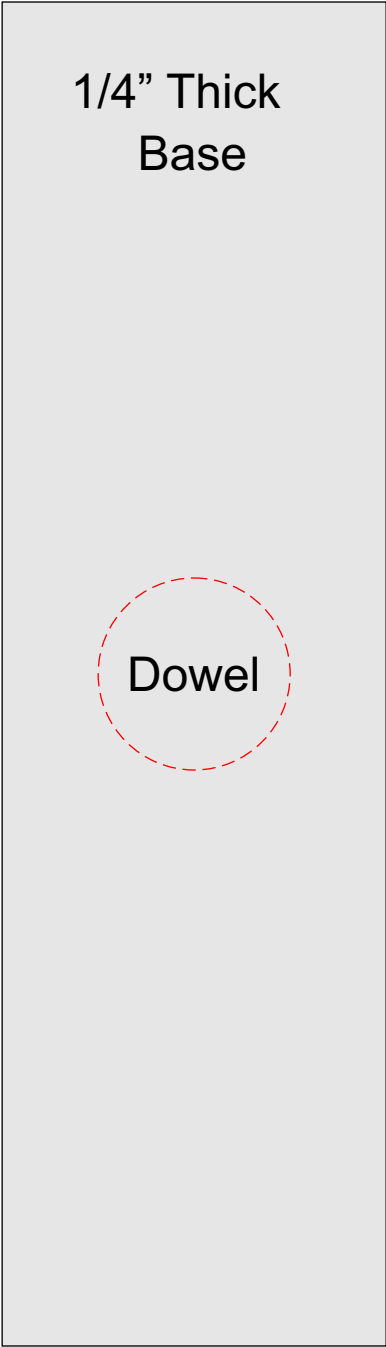

One on each side of the sails.

1/4" Thick
Base

A light gray rectangular block representing a base. It is wider than it is tall. The text "1/4" Thick Base" is centered near the top.

1/4" Thick
Base

A light gray rectangular block representing a base, narrower than the one on the left. It is wider than it is tall. The text "1/4" Thick Base" is centered near the top. A red dashed circle is centered in the lower half of the block, with the word "Dowel" inside it.
