General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

Scorpion Box with picture for bottom

I decided to make this box completely out of Baltic birch plywood. I had some extra 1/4" thick BB ply so I glued up 6 sheets to get 1.5" thickness I wanted for the walls of the box.

If you have thicker sheets then glue up what you have.

I painted the lid keeper red so the scorpion would stand out. Note that I kept a small glue surface unpainted.

Many woodworker consider the end grain of plywood to be something they need to hide. I wanted to highlight the end grain in this project.

Lid
1/4" Thick

Lid Keeper

1/8" Thick or 1/4" Thick
Paint inside the dashed ring

Walls
1 1/2" Thick

Bottom
1/4" Thick

Print on high quality photo paper.
Glue into the bottom of the box
after finishing. You can then spray
the picture with a fixative for durability.
