General Pattern Information

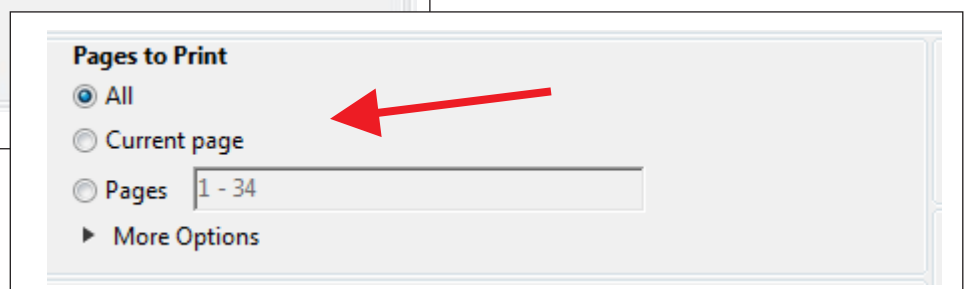

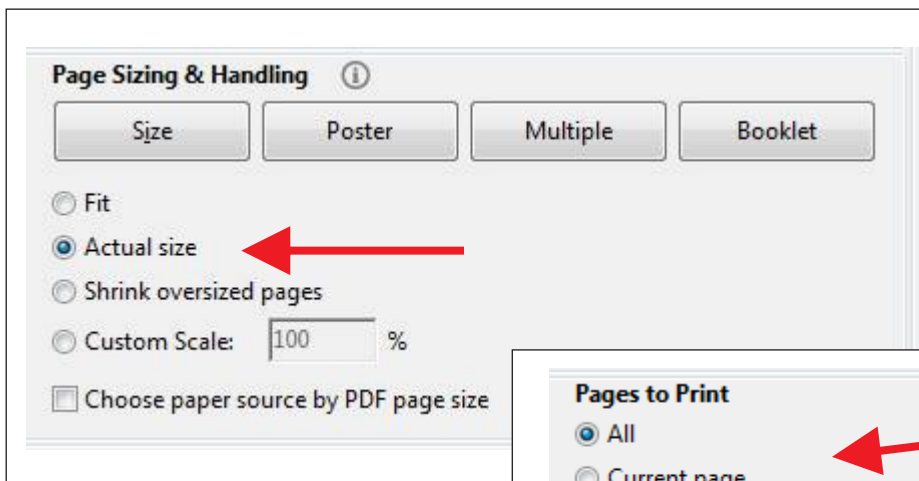

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

Skeleton coming out of the wall.

Tape the hole board pattern together for a full size pattern.
Glue the pattern to the hole board.

Mask off 1/4" of the backer board for later glue area.
Paint the backer board black.

Cut the remaining parts.

Mask off a few areas on the skull backer board for gluing.

Paint the skull backer board black.

Remove the masking tape from the skull backer board.
Glue the skull backer board to the back of the skull.

Glue the spine bone(1) to the backer board in the position shown.

Glue the wrist bones(2) to the hand bones(3)

IMPORTANT: Pay attention to the orientation of the wrist bones to the hand bones. When completed the thumbs should be pointed in like the picture below

I used a sawtooth hanger on the back.

1/2" Thick

Skull Backer
1/4" Thick Paint Black

1/2" Thick
