General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

Snack Tray

Design Options

After the tray is glued together I sanded all the edges flush. I eased all the sharp edges with hand sanding.

I routed a 1/4" round over on the bottom of the tray.

The tray will not be dishwasher safe so I wanted to give it a good finish. I applied several coats of gloss spray acrylic. I brushed with 000 steel wool between every coat for a smooth finish.

For those of you who worry about food safe finish let me explain. Almost all modern finishes are food safe after they have completely cured. Cured is not the same as dried. It can take a few days for the finish to cure. I will let this tray sit for a week before use.

To clean the tray just wipe it out with a damp paper towel.
