General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

It is very helpful if you stack cut the pieces. It save a lot of time.

I cut all the pieces from Baltic Birch plywood. The risers are 1" diameter dowel rod. The bottom board is .25" thick MDF.

You can just use your own board if you don't want to build one. Just make sure the squares are at least 1.75" square.

I thought that the whimsical nature of the stickman chess pieces needed something more than a standard chess board. The squares are stepped giving it an interesting look.

1/4" Thick

Optional Game Board.

1.75" X 1.75" X .25"

Cut all the squares and dowels.
Glue the dowels to the squares.
Paint the assembled squares.
Paint the bottom board.
Glue the risers to the bottom board.
I used thick super glue to glue the riser squares to the board.

Dowel Length
