Wedding Table Numbers

If you wish to have a backer board just stack cut two at the same time. Cut the perimeter first then separate the parts. Then you can cut the interior fretwork on one part and glue the backer on.

You can also make the table number two sided by cutting two of each number and glueing them to a third blank in the middle. If you make them two sided I recommend using 1/8" for the three parts..

1/4" Thick
Base

1/4" Thick
