The front cover is two 1/8" thick boards glued together after the fretwork is cut to make a 1/4" thick front cover.

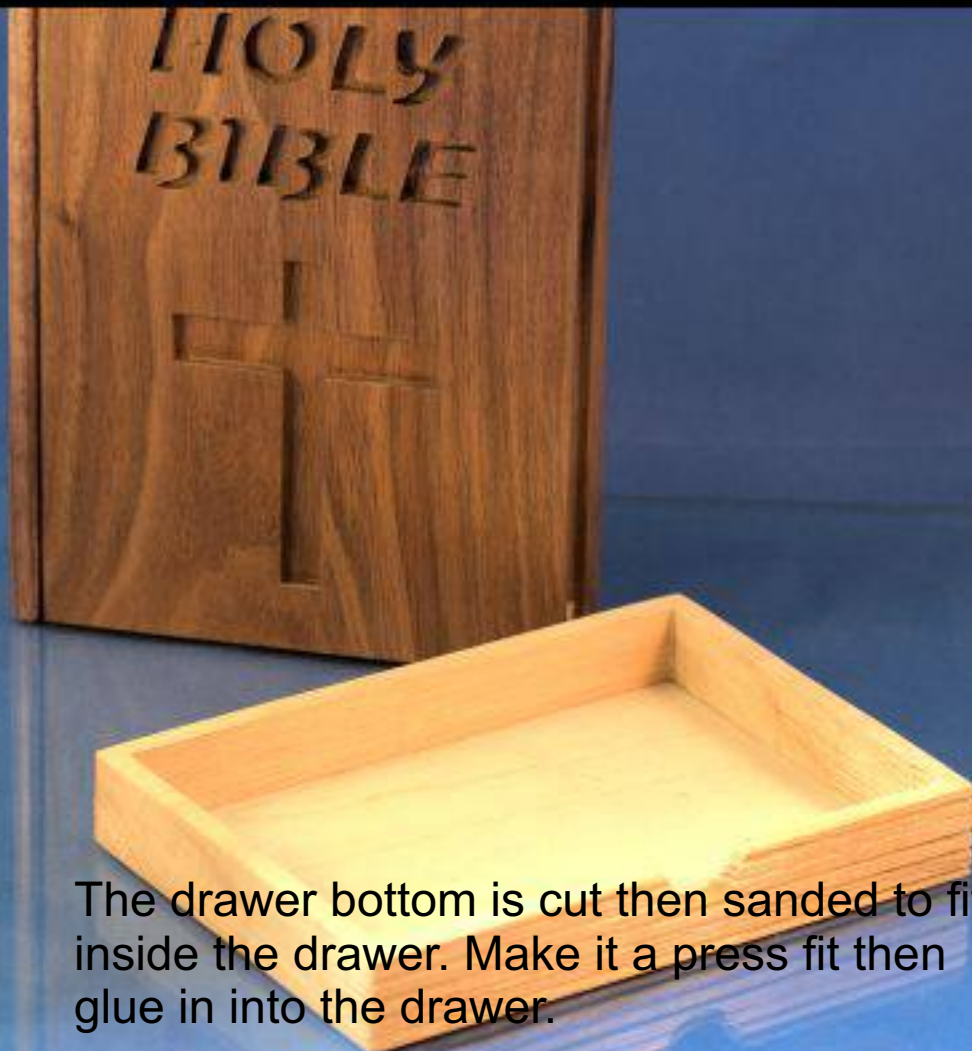

All the edges of the front, back and spine are rounded over one every edge front and back.

I used a band saw to cut the kerf representing the paper pages. If you don't have a band saw a hack saw will work. Just make a very shallow cut.

Everything is glued together except the drawer.

The drawer bottom is cut then sanded to fit inside the drawer. Make it a press fit then glue in into the drawer.

Round over bot long edged top and bottom

Spine

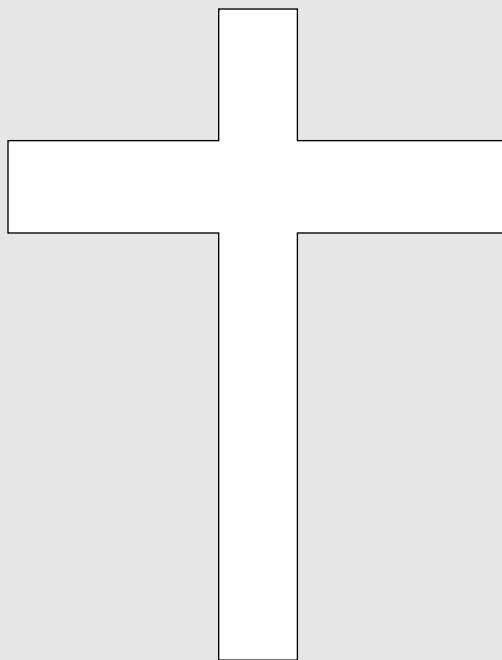

The Holy Bible

1/4" Thick

1/8" Thick Front Cover

1/8" Thick

*HOLY
BIBLE*

After cutting the fretwork glue this to the cover backer on the next page.

Round over all edges front and back after it is glued to the cover backer..

1/8" Thick Front Cover Backer

To be glued to the front cover.

1/4" Thick Back Cover

Round over all edges front and back.
