and the Scroll Saw Key Chain Printer

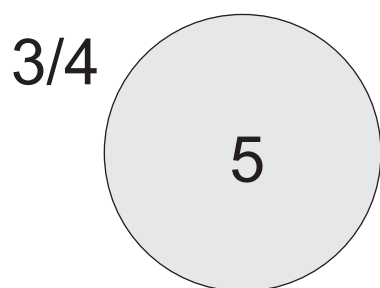

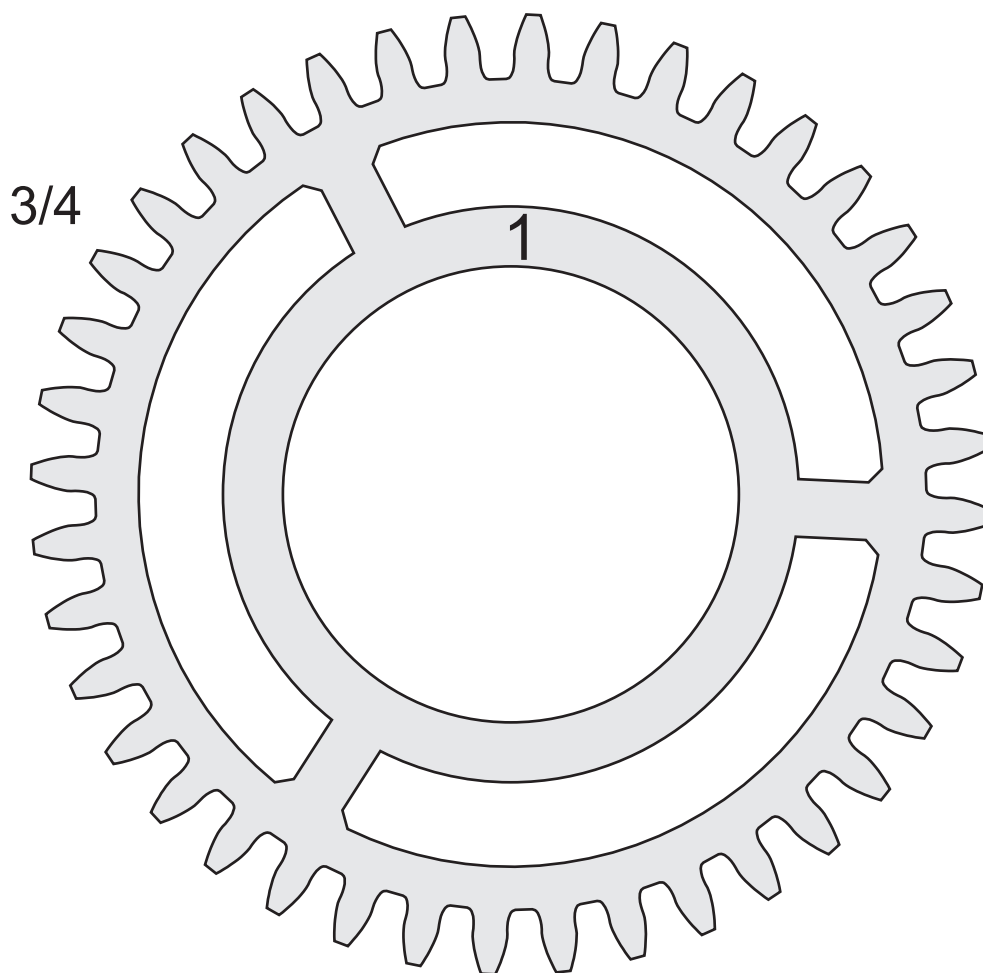

Note to commercial print employees: I give my permission to print as many of this pattern book as your customer requires.

A wooden clock with a large gear mechanism. The clock face is white with black numbers and hands. It is mounted on a wooden frame with a large gear visible behind it. The clock is set against a blue background. The signature "Steve Good" is visible in the bottom right corner.

This project requires a 2 3/4" clock insert. I purchased mine at www.woodcraft.com. Item number # 142320. The hole for the insert is 2 3/8".

I used 1/4" diameter wooden dowel to simulate the shaft.
Just cut a small section and glue it in the holes of the
two front gears.
