# General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Scroll Saw Blade Bottom Feed Assist Tool

This small tool can be worn on your off hand pointer finger. When you are bottom feeding a scroll saw blade on a large board, you can poke the wire down through the board from the top and line up the blade with the wire.

[Video Demonstration Link](#)

1/4" Thick

Use a 1mm micro drill bit to drill the center hole for the wire. Super glue the wire in the hole.
