General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

Cat Bird House

I used Titebond III waterproof wood glue and small brad nails to make it hold up better in the weather.

After the paint cures I will cover the project in three coats of spray acrylic.

Hanger

A green wooden box with a hanger at the top and a clean out door in the center. The box is rectangular with a flat top and a slightly raised base. The hanger is a small, curved piece of wood attached to the top. The clean out door is a rectangular panel with rounded corners, attached to the front of the box. It has a small, round, brass-colored knob at the top center. The box is set against a plain white background.

Clean Out Door

The bottom is flush with the back.

Pivots open on a screw.
