When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

20.5" Tall and 11" Wide

I was able to lay out the parts on a 24" X 36" X 1/2" sheet of plywood.

Most of the pattern pieces need to be cut out and taped together.
