## **General Pattern Information**

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

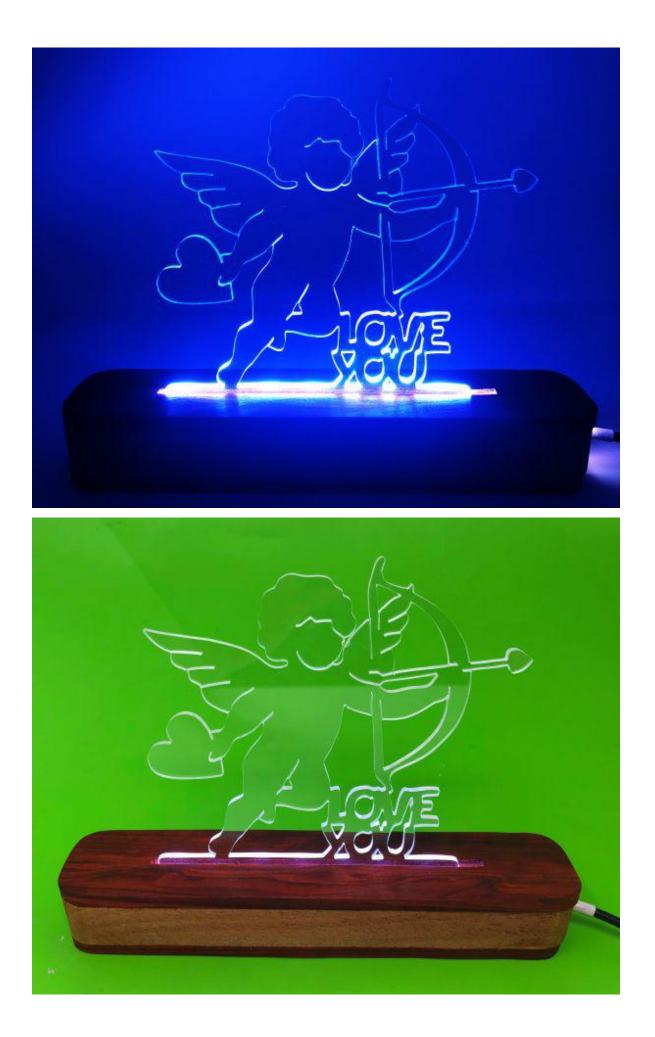

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the "Page Sizing & Handling" section. Make sure the "Actual Size" is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the "Pages to Print" section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

I use the sandwich technique to cut acrylic. I place the acrylic between two pieces of 1/8" or 1/4" Baltic birch plywood. I wrap the sandwich in blue painters tape. I then apply the pattern on the tape.

Leave the protective sheet on the acrylic until you have completed the cut.

You will need an LED strip light. You can get one that is USB powered or uses a wall wart. You can get white LED or color.
