General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Printing Instructions

Hand Mirror

There is a small and large pattern.

I buy plastic mirror from Amazon. <https://amzn.to/3xQ6okb>

It can be cut to size with a table saw or the scroll saw.
I then sandwich it between two sheets of this plywood
to cut the oval. This makes for a cleaner and easier cut.

I wrap the sandwich in blue painters tape and apply the pattern of the mirror oval.

Carefully cut the oval.,

Cut carefully so you get a snug fit with the top half of the mirror body.

Glue the body halves together and after the glue dries sand to a comfortable grip.

Mask off for the glue and paint. Paint the back of the mirror the color you want to show through the fretwork.

Use CA glue or Epoxy to gold the mirror inside the body.

Small Pattern.
