## General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at [steve@stevedgood.com](mailto:steve@stevedgood.com)

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

## Printing Instructions

## Mechanical Heart Pendant

The pattern comes in two sizes. The large pattern is not a pendant.

I used a #1 reverse tooth blade and 1/8" Baltic birch plywood.

It is critical to get the axle holes lined up. I cut the bottom heart. I laid it over the uncut top heart and drilled the holes.

Sand all the pieces before assembly.  
I made the gears slightly thinner by sanding  
so they would rotate more smoothly.

## Small Pattern

1/8" Thick

Use a 1/8" diameter wooden dowel.

1/4" Thick  
Use a 1/4" diameter  
wooden dowel

Large Pattern  
Not a pendant.
