General Pattern Information

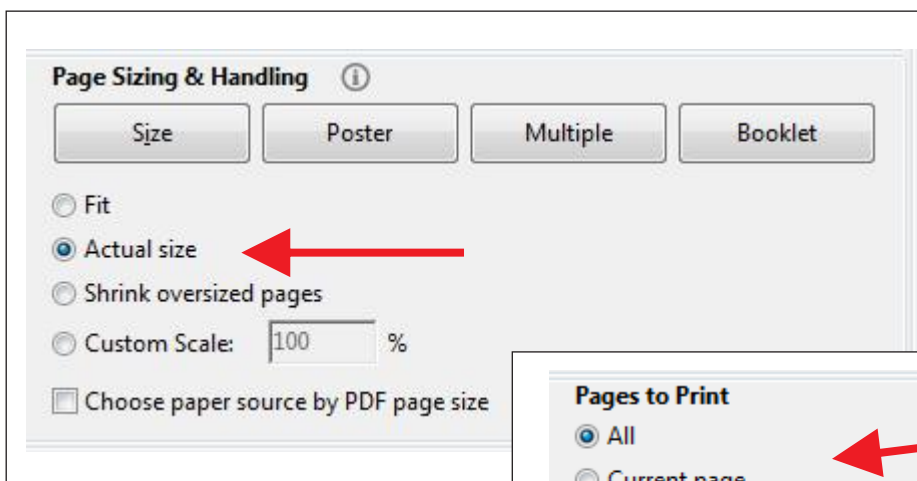

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

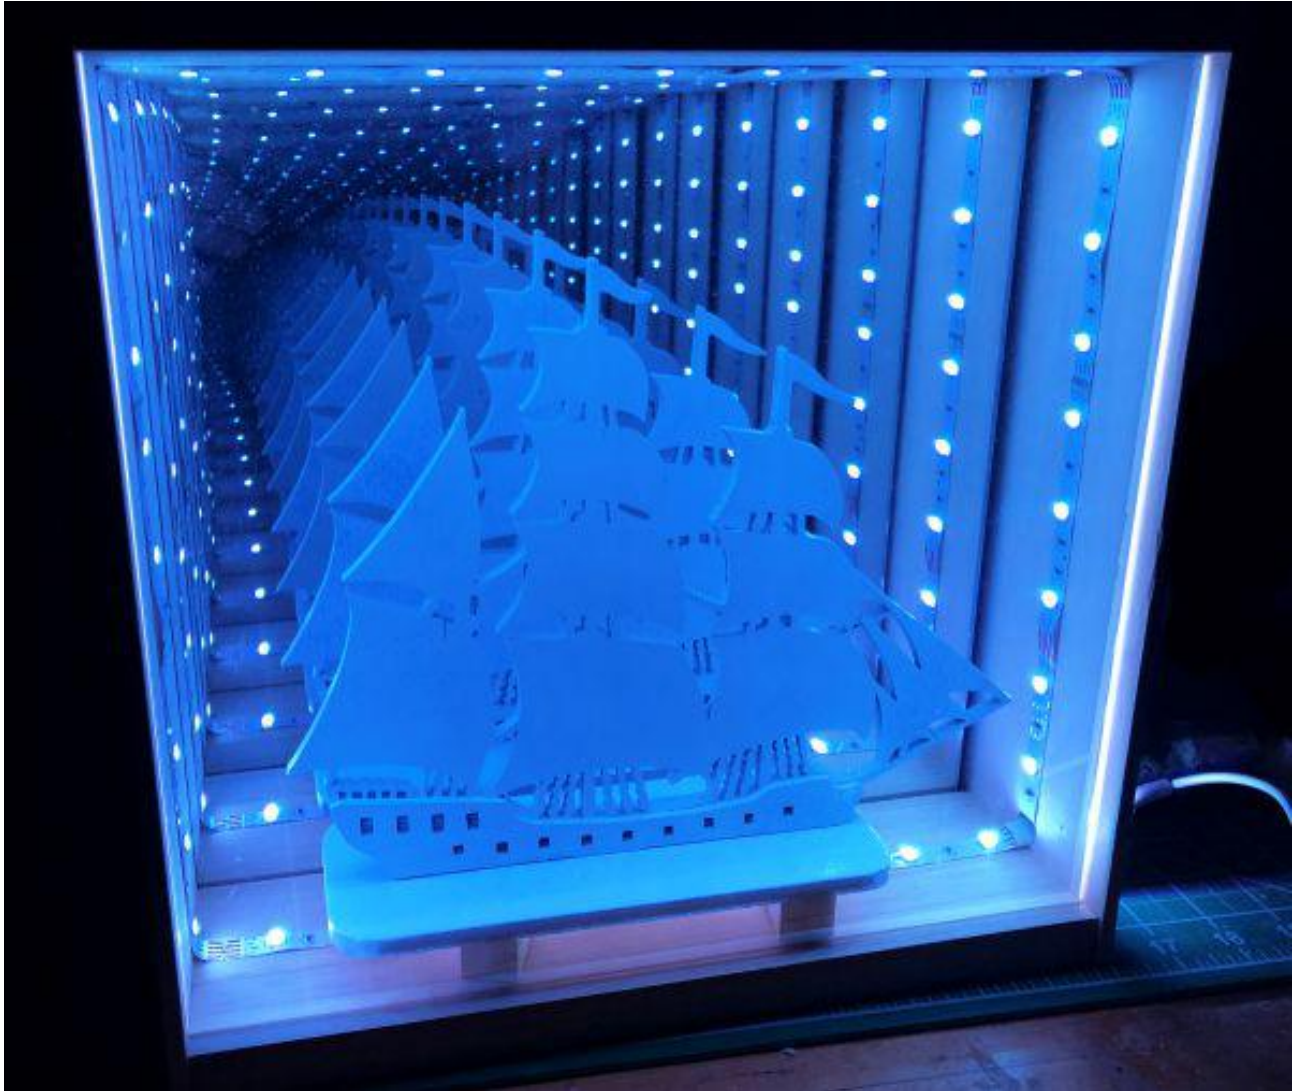

Printing Instructions

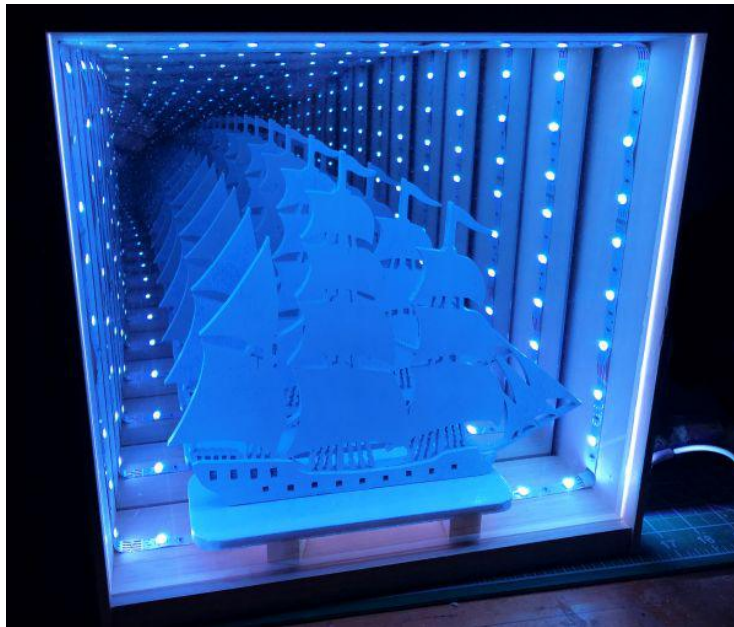

The parts list with purchase links are on page 5

LED Infinity Display Box for a scroll saw ship

This pattern book contains very basic details to build the infinity display box. Not every detail is covered. It is a basic box to hold both mirrors. The LED strip is stuck down around the inside center of the box. Read the instructions completely before you begin.

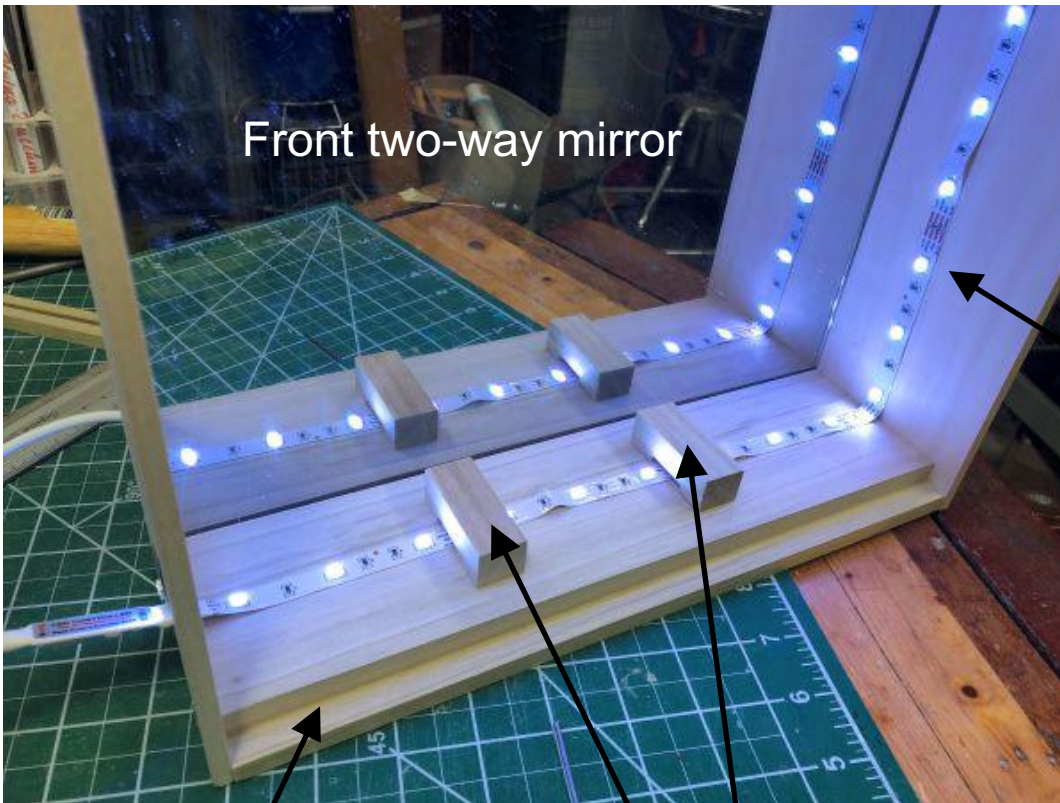

On this prototype I left the box natural. It will look better if you paint it black before you add the mirrors and scroll saw project.

Note the dimensions

Drill a 1/4" hole for the LED strip power.

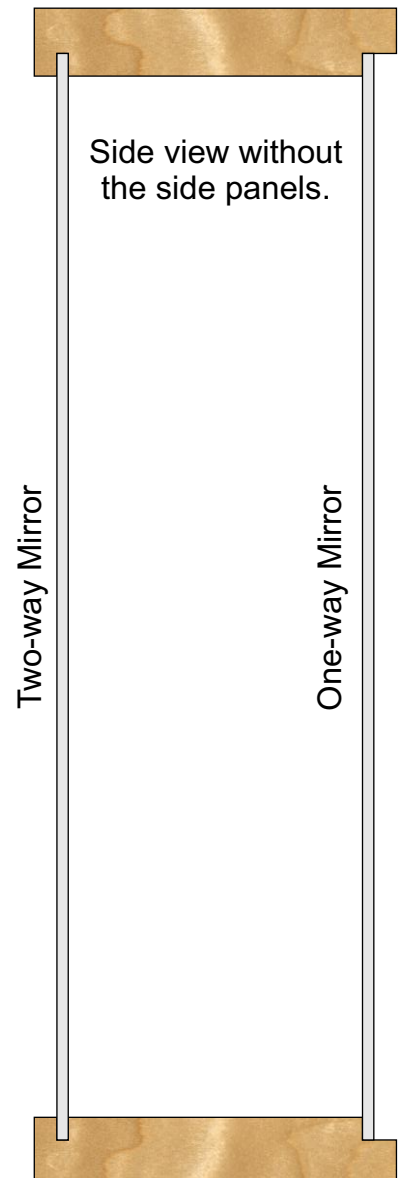

Front two-way mirror

LED Strip.
Cut to fit.

Stand to sit the scrolled project on.
Glue these in place.

Rabbit for one-way mirror

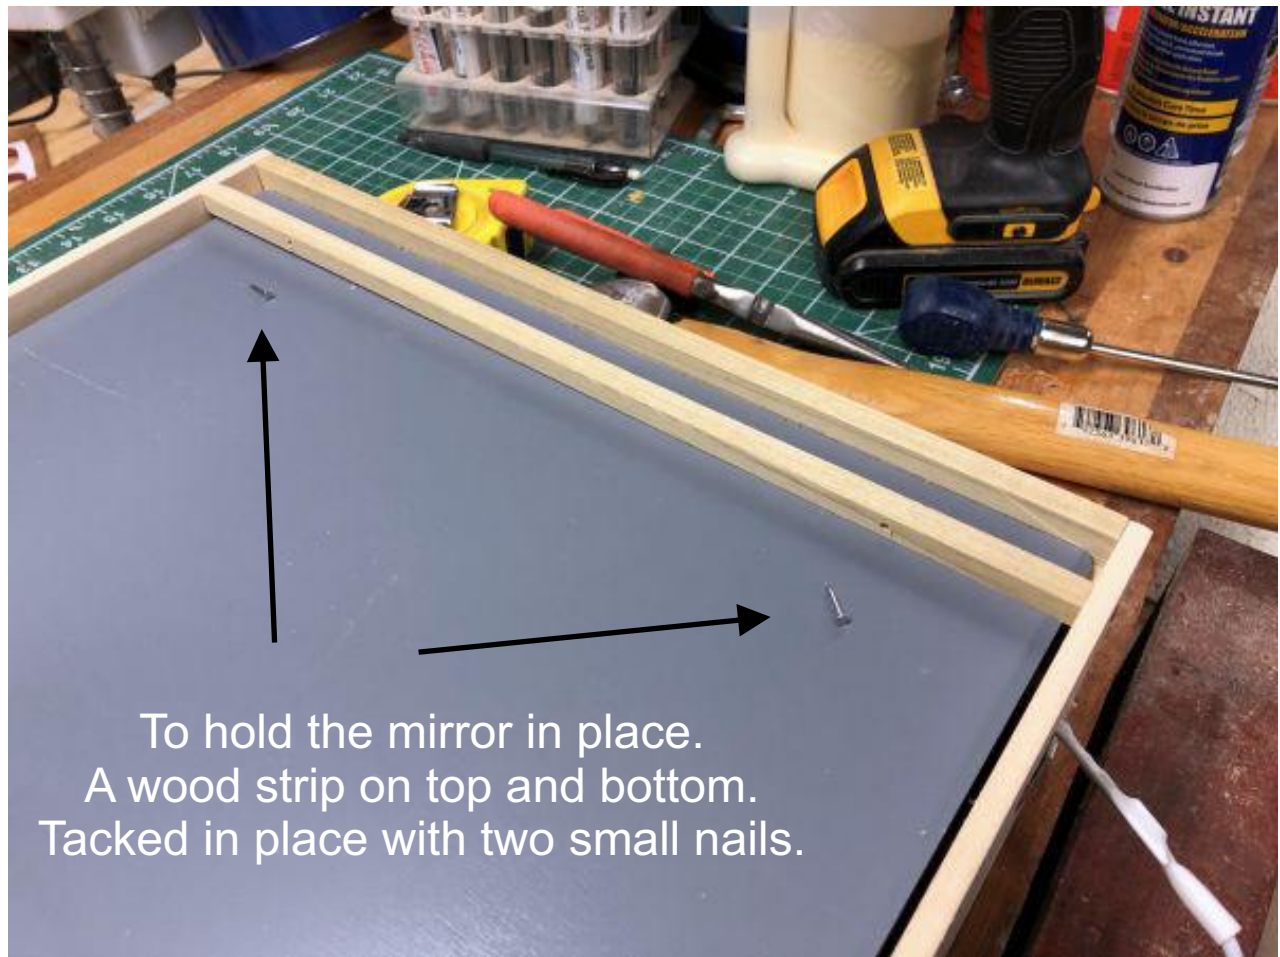

When you install the rear mirror
just tack in loosely in place. You will
be able to remove the back mirror
to install the ship or other cut.

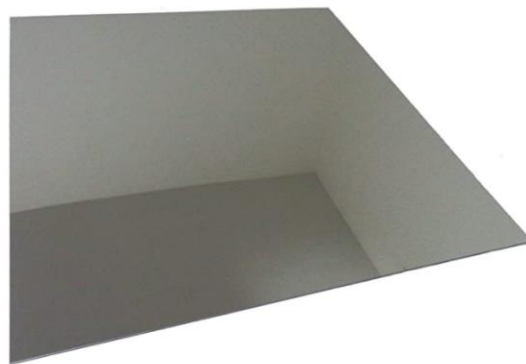

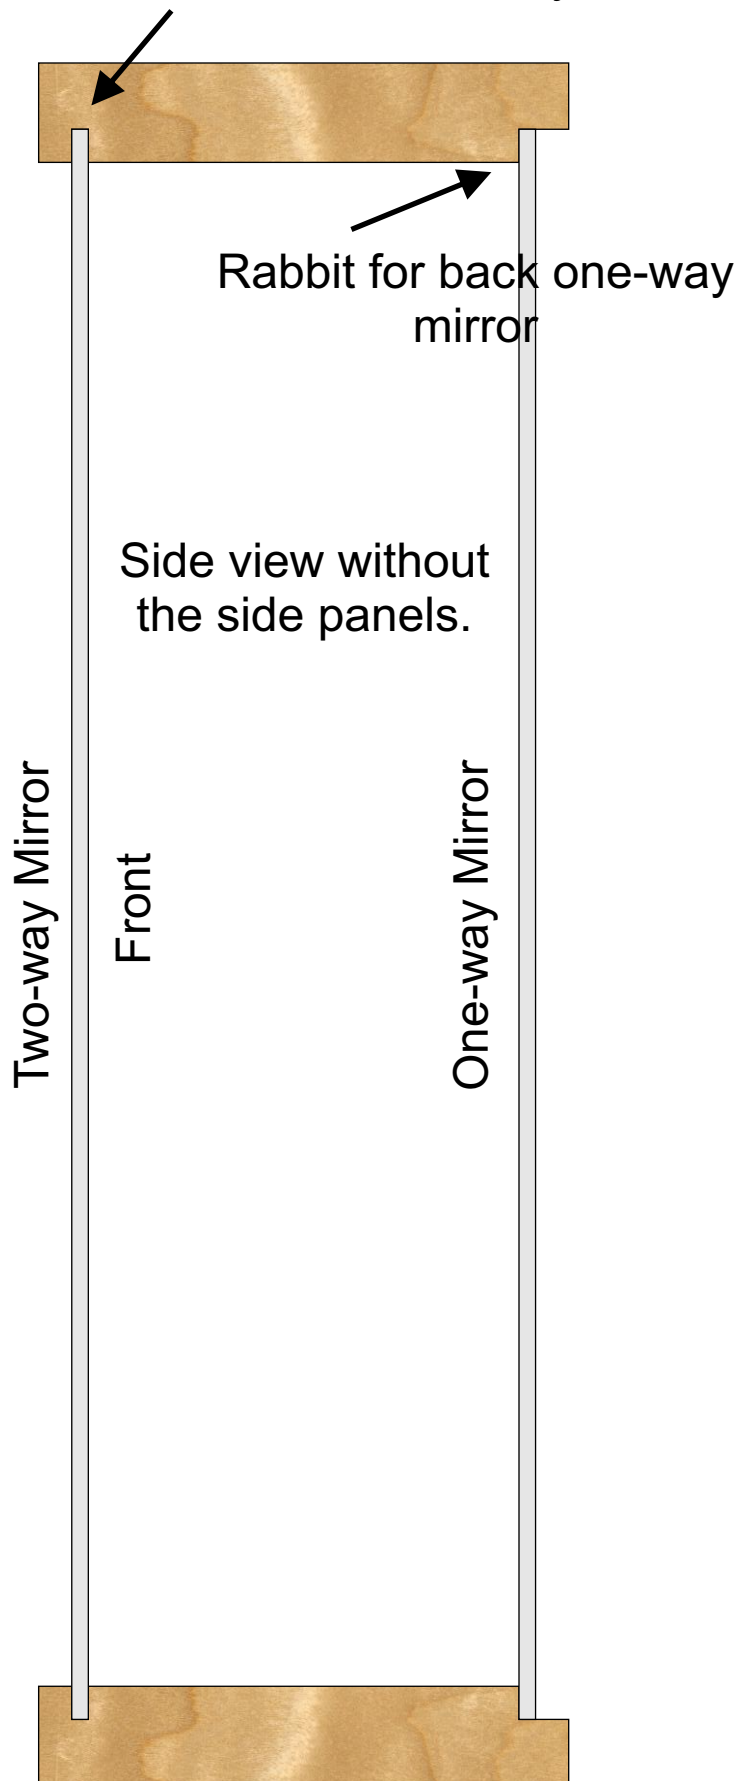

Side view without
the side panels.

Two-way Mirror

One-way Mirror

Groove to hold the two-way mirror

For best visibility, paint the scroll saw project white.

This is just a sample cut for the display box. You can use any pattern you like for the box.

Stand for the bottom of the box.
