General Pattern Information

You may use this pattern to make as many of the project as you like. You are free to use any technique including mass production to build the project. The pattern may be copied and given to others provided the entire book is kept intact. You may not sell the pattern or include it in another commercial package of any type.

Steve Good retains the right to the pattern. If you have any questions about the use of this pattern please contact me at steve@stevedgood.com

When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the "Page Sizing & Handling" section. Make sure the "Actual Size" is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the "Pages to Print" section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Religious Fret Clock
Decoration Option 1

Either Style of clock should work.

Choose the style of clock parts you want to use. Either style should work. Do your measurement to make sure.

On the pattern piece that holds the clock I have marked the center point where the clock goes.

If you use the clock insert style then determine the diameter of the mounting hole needed for your clock and Mark that around the center hold. Cut the hole to mound the clock.

Of you choose the clock movement style the drill the center hole to insert the shaft.

If you use the clock movement style you can use this as your clock face. Clue it to the wood face and seal it with decopage.

Print on high quality photo paper.
