When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the “Page Sizing & Handling” section. Make sure the “Actual Size” is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the “Pages to Print” section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

Sides and back panels

I used clear plexiglass and sanded them for a frosted effect. After you build the box cut the plexiglass to fit. I used super glue on the corners of the plexiglass to hold them together. The plexi glass is not glued to the wood.
