When printing this pattern it is important to print it full size. When you bring up the print dialog box look in the "Page Sizing & Handling" section. Make sure the "Actual Size" is selected before you hit print.

You also only need to print the page/s you need. After the print dialog opens look for the "Pages to Print" section. You can print the current page or a range of pages. This will help save ink by not printing the title/instruction pages.

This puzzle has two sides. One side holds the pieces ready for use. Empty out the pieces and flip the puzzle board over. Now you can try to arrange the pieces in the shape of a cross.

It's fun to show side one and ask if they think they can solve the puzzle. All the pieces fit nicely in their cut outs. When they say yes, dump the pieces and flip the board It is tempting to want to cut the puzzle pieces from the waste of the puzzle board. This is not wise, because the drill hole will be a tip off to where the pieces fit.

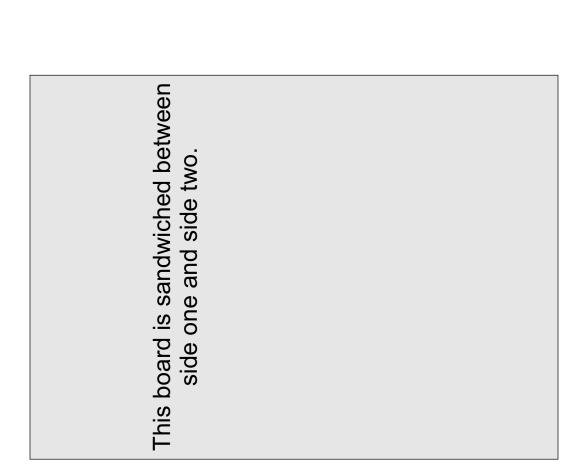

I made the opening a couple hundreths lager than the puzzle pieces. You won't have much difficulty getting the piece to fit
